

CUSTOM BINTAG ORDER FORM

Check All Printers That Apply*

Desktop Printer**

Brand and Model: _____

Portable Printer**

Brand and Model: _____

Laser Printer

Brand and Model: _____

**Formatting and fonts vary between printers. We require at least one sheet of laser paper and/or 4 feet of Desktop/Portable printer paper for testing of the new tags.*

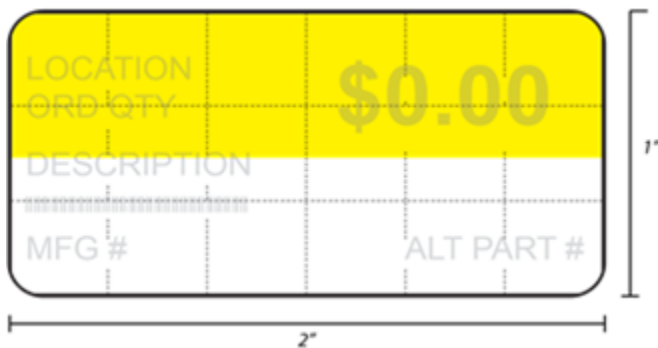

***Desktop and portable printers have reduced printable area*

Available Data Fields¹—include the number of characters needed

Field	# of Char. Req'd	Field	# of Char. Req'd
<input type="checkbox"/> 1. Part Number		<input type="checkbox"/> Part Number Bar Code 128	
<input type="checkbox"/> 2. Description 1 (Max 27 char.)		<input type="checkbox"/> Primary Alt. Bar Code 128 ³	
<input type="checkbox"/> 3. Description 2 (Max 27 char.)		<input type="checkbox"/> Unit Cost, encrypted	
<input type="checkbox"/> 4. Location Name		<input type="checkbox"/> Today's Date	
<input type="checkbox"/> 5. Class1 ID		<input type="checkbox"/> Retail Price	
<input type="checkbox"/> 6. Department ID		<input type="checkbox"/> Pricing Level 2 (ie '3 for \$5.00')	
<input type="checkbox"/> Consumer Brand Name		<input type="checkbox"/> Pricing Level 3 (Qty for Price)	
<input type="checkbox"/> Price per Consumer Unit		<input type="checkbox"/> Pricing Level 4 (Qty for Price)	
<input type="checkbox"/> Consumer Unit Text		<input type="checkbox"/> Order Quantity	
<input type="checkbox"/> Primary Alt. Part Number		<input type="checkbox"/> Manufacturer's Part Num.	
<input type="checkbox"/> Order Bar Code Content ²			

- 1) We recommend using no more than 9 data fields
- 2) Order Quantity + Part Number
- 3) Most stores prefer to bar code the part number because it results in a shorter barcode

Draw Your Bin tag*

Notes on your Bin Tag Layout:

**Barcodes must be placed on their own line*
